

## Instructions for AR learning material

After reading these instructions and pulling up the websites/markers, please spend 10 to 30 minutes max familiarizing yourself with the material. Once you feel comfortable with it, retake the quiz. This time you will mark the Post-learning checkbox.

- 1) Go to <https://github.com/jzfraser/jzfraser.github.io> on a computer
  - a) Read the README's list of known issues
- 2) Click on the Markers directory
  - a) Print the markers or download and open them to be displayed on the computer
- 3) Load the webApp located at <https://jzfraser.github.io> on your phone
  - a) It will ask for camera permissions and possibly accelerometer access
- 4) Point the camera at each of the markers and view the media displayed
  - a) The best order to view them in is 03, 04, 05, 01, 06, 02, 00, 07, 12, 09, 10, 11
  - b) Markers 01 and 02 show variations of merge sort. Marker 00 juxtaposes the two.
  - c) If the markers that display videos just show black boxes, try a different browser/device
